Metallic Bluetooth® Headphones

User's Manual for
MI-BTH09

Package Includes:
1 Bluetooth Headphone
1 USB Charging Cable

Charge It

- Plug the micro USB cable into the micro USB port on the bottom of the headphone, and connect the other end of the cable to either a computer USB port or to a USB-compatible car or wall charger.
- The charging LED light will turn red.
- When charging is complete, the LED light will turn off.
- Charging time is approximately 2-3 hours.

NOTE: Flashing red LED light will appear on bottom of right earpad to indicate when the headphone is low on battery.

Turn It On/Off

- Press and hold the power button on the headphone's left earpad.
- The headphone will flash a blue LED light to indicate the headphone is turning on.
- To turn the headphones off, press and hold the power button for 2-3 seconds and a red light will flash 1 times to indicate it is turning off.

Pair & Connect With a New Device

- Press the power button for about 2-3 seconds to turn on the headset, the LED light at the bottom of the earpad will be flashing blue, your headphones are now ready to be paired.
- On your Bluetooth-enabled smart phone, tablet or media player, navigate to the Bluetooth settings menu, turn on the Bluetooth feature, and search for new devices.
- After a few seconds you will see "MERKURY BTH09" listed.
- Tap this model to select it. Headphone will prompt a sound and the Bluetooth LED will flashes blue to indicate it's successfully paired with your device.
- If your device asks for a pin code, enter 0000 or 1234.
- If using the AUX feature connect one end of the included AUX cable to the headphone jack at the bottom of the headphone, and the other end of the AUX cable to your media player. The headphones will power off since they don't need to use battery while in the AUX mode.

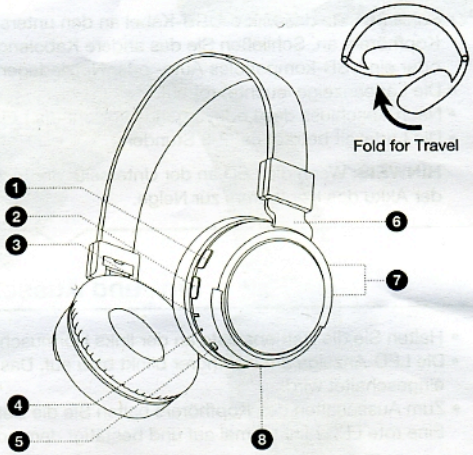
Play

- Connect your device to the headphones via Bluetooth (refer to the "Pair & Connect" section) or via the included AUX cable.
- Open your favorite music app, select track and press play.
- Control the music, track & volume from your smartphone or from the on-ear button controls on the headphones.
- All audio, including music, games, videos, and notifications will be routed through headphones.

NOTE: On-ear controls do not work through the AUX connection.

Buttons & Functions

1. Answer/End Call
2. Press & Hold: Power On/Off
   Play/Pause Music
3. LED Indicator
4. Microphone
5. Micro USB Charging Port
6. Adjustable Headband
7. Press:
   Increase/Decrease Volume
   Press & Hold:
   Previous/Next Track
8. 3.5mm AUX Input



Reconnect to Bluetooth

- You only need to pair your Bluetooth device with the headphones once.
- With your previously paired device's Bluetooth turned on and in range, turn on the headphones (refer to the "Turn it On" section)
- The headphone will automatically reconnect to the last Bluetooth device it was connected to.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth settings menu on your device, turn on the Bluetooth feature, and select "MERKURY BTH09" from your list of paired Bluetooth devices.

Troubleshooting

No power	Recharge your headphones using the included micro USB cable. Check if there is an AUX cable plugged into the headphones (Bluetooth capabilities will not function if AUX cable is plugged in). Try using a different micro USB cable.
Music is not playing over Bluetooth	Make sure your Bluetooth device has A2DP profile. Check if both devices are paired and connected over Bluetooth. Check if there is an AUX cable plugged into the headphones. Restart the headphones to reconnect your Bluetooth device. Forget the original connection and re-pair your device.
Bluetooth device will not reconnect with the headphone	Try powering off and then back on using the power button. If failed to pair within 3 minutes, see "Pair & Connect With a New Device" in this guide. Try using your headphones with a different Bluetooth device. Ensure Bluetooth is activated on your device. Forget the original connection and re-pair your device.

Headphone Specifications:
Driver Unit Size: 40mm
Frequency Response: 20Hz-20KHz
Impedance: 32 Ω
Weight: 142g

Battery Information:
Built-in Battery: Lithium
Input: DC 3.7V/500mA
Battery Capacity: 300mAH
Music playing time: Up to 5 Hours*
Charging time: 2-3 hours
*Approximate playback time. Battery life depends on individual use and may be slightly more or less than the time specified.

Bluetooth Information:
Bluetooth Specification: V4.0
Operating Distance: 10 Meters (Class II)
System Requirements: Bluetooth-capable device

Additional Connection Sources:
Audio Source: 3.5mm Auxiliary Input
Power Source: Built-in rechargeable battery or via USB cable
